WEATHERJACS®

## Product Information **Weatherjac® Precision Fit Bevels**

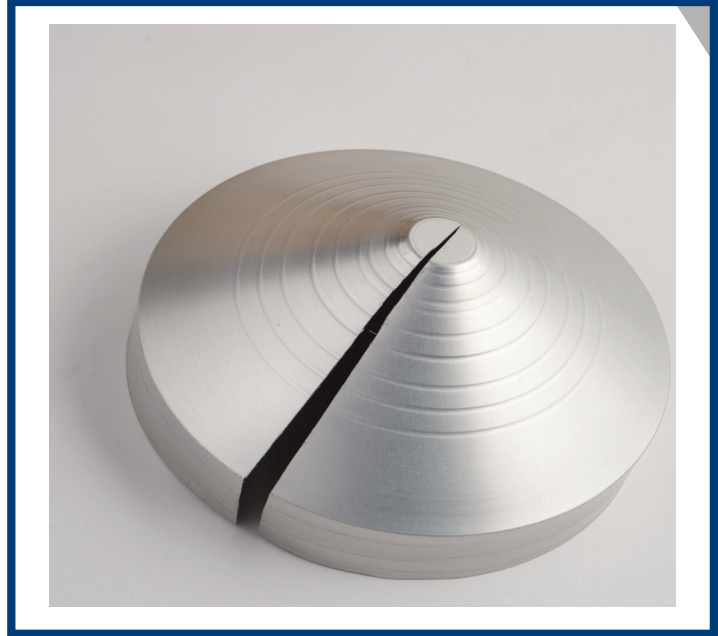

### **Product Description**

**Ideal Products** now manufactures **Weatherjac®** Precision Fit Bevels are available in Sizes #1 through to #24. These Bevels are produced using 1100 series 0.024 painted aluminum, the same aluminum used in Ideal's pressed elbows.

**Weatherjac®** Bevels are stocked and available from Ideal's Warehouses in Edmonton, Alberta; Stoney Creek, Ontario; and Indianapolis, Indiana.

#### **Advantages.**

- 1 piece, sliced for easy cutting and installation;
- Significant labour and material cost savings;
- No need for on site fabrication
- Designed for multi-fit sizing with each separate size Bevel;
- Multi-fit markings are debossed into each Bevel for ease of installation

All other Bevel sizes are available from Ideal Products, but will be manufactured as two piece precision cut and crimped.

### **Product Application**

Ideal Products **Weatherjac®** Precision Fit Bevels are extremely safe and easy to install, therefore increasing productivity and safety for a positive impact on profit.

During the forming process, all **Weatherjac®** Bevels are pre-marked with cut out lines and sizing for various sizes of pipe and insulation combinations.

All **Weatherjac®** Bevels are shipped from the factory without seams for ease of installation, and factory deburred edges for safe handling.
