

# WEATHERJACS® ENDCAPS INSTALLATION

## REQUIRED TOOLS:

GLOVES

SAFETY GLASSES

SIZING CHART

TIN SNIPS

SCREWS / BANDING

SEALANT

**1**

Identify pipe size and insulation thickness.

**2**

Identify proper size using sizing chart provided by supplier or [www.idealproducts.ca](http://www.idealproducts.ca)

**3**

Identify inner cut out guidelines.  
Cut hinge to separate halves.

**4**

Mark cut lines if desired for increased accuracy. Cut out along identified guidelines.

**5**

Install with seams in water shed fashion.

**6**

Secure with screws and/or banding and finish with owner approved sealant.
