

# ThermalJacs547® • Insulation

Commercial / Industrial V-Groove pipe insulation

Conforms to ASTM C585 & C547 Pipe Insulation standards

Local manufacturing • Faster lead times

Most versatile insulation • Fitting 1.5" – 72"+ NPS & Tubing sizes

INSULATION

## Impact on Profit • Increasing your Productivity

- Shipped flat or pre-formed to meet ASTM C547
- Manufactured in multiple locations within North America
- Precision-cut fabrication process • Ensures a precise fit and no gaps upon installation
- Superior thermal conductivity helps maximize control of heat loss • Contributing to reduced operating costs and greater energy savings
- Extremely low in-service shrinkage • Preventing the formation of thermal breaks
- Clean handling properties • Reduces clean-up time and expenses

## Impact on Safety • Helping you Become a Safer Employer

- Easy to handle & fabricate (cuts easily with a knife) • Reducing exposure to risk of cuts
- Clean handling properties • Reducing exposure to skin and respiratory irritation
- Environmentally friendly

## Consider.

Are you waiting too long for Insulation?

Have cost & efficiency concerns stopped you from using V-Groove Insulation?

Is freight costing you too much?

Consider using ThermalJacs547® Pipe Insulation and see the difference it can make.

Consider the impact of a more Efficient • Cost effective and Environmentally conscious V-Groove insulation.

**Safer. Smarter. Faster.**
